## Intensive Behavioral Health Services

**Let our team “wrap around” your child and family with services that can bring the hope and healing you’ve been looking for.**

Children and adolescents with emotional and behavioral difficulties who need help navigating life and relationships at home, during the school day, or in the community will benefit from this program.

**The goal of Intensive Behavioral Health Services is to boost your child’s ability to function socially, emotionally, and behaviorally.**

Specific interventions are developed to support the emotional growth of your child. With the guidance of our team, parents and children will learn how to:

- Identify feelings;
- Manage anger;
- Improve social skills;
- Communicate respectfully;
- Strengthen family relationships; and
- Express emotions in healthy ways.
